

Outlet Metered, Outlet Switched PDU Data Sheet – Advantage Series

The EN6402 Outlet Metered, Outlet Switched PDU combines complete energy & power metering, environmental & access monitoring, and remote outlet on/off switching for complete protection and control in critical environments. Outlet power-up sequencing protects against inrush current overload and allows users to define equipment boot-up order and timing, while billing-grade outlet level metering provides detailed equipment level power data. Advanced network management features allow for a variety of remote access methods and integration with accessories including environmental monitoring and security access solutions.

Model: EN6402 16A, 400V 3ph Wye

Advanced Network Management Module – Advantage Series

Network Connectivity					
Network Connectivity	Dual ports: 1x Gigabit Ethernet (10/100/1000 Mbps) and 1x (10/100 Mbps) connection/IP address				
Ethernet Cascading	Up to 64 units share a single "daisy-chain" Ethernet connection/IP address				
DC Power Sharing	Each PDU can provide DC power sufficient to power network management electronics				
Dual Ethernet Support	Dual Ethernet ports for redundant network communications				
Dual Network Access	Dual network connectivity allows redundancy and/or multiple stakeholder connectivity				
Remote Connectivity	HTTP(s), iPV4 and iPV6, SSH, Virtual Serial, SNMP (v1, v2c, v3), JSON-RPC, LDAP(S),				
WebUI Interface	Data efficient REACT framework with native mobile device support				
Management Module Attributes					
Microprocessor/Memory	Cortex A-5				
Field Replacement	Hot swap replaceable module; fast plug-and-play connectivity				
Module Orientation	Tool-less removal and 180° install capable for top or bottom power cord orientation				
User Display	Dual Displays: large high visibility LED display for key metering information and alarms. Low-power graphical oLED with user controls for local information.				
Display Language	English, Spanish, German, French, Italian, Korean, Japanese, Chinese (simplified)				
Lighted Color Code	Hear programmable color border allows power course identification by PDH				
Ligitied Color Code	User programmable color border allows power source identification by PDU				

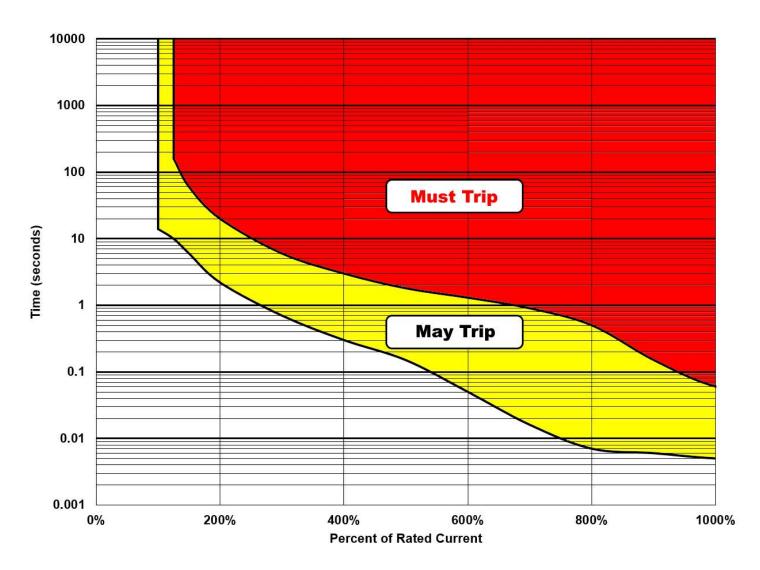

Model: EN6402 16A, 400V 3ph Wye

Overcurrent Protection

Circuit Breaker Configuration				
Circuit Breaker Type	No internal circuit breakers (temperature stable)			
Circuit Interrupt Rating	5,000 Amps (UL489)			
Circuit Breaker Trip Curve	Sensata Trip Curve 62/Carling Trip Curve 24			
Inrush Pulse Tolerance	10 times rated current (approx.)			
Dielectric Strength	3,750 VAC, 60Hz, 60 seconds between all electrically isolated terminals			
Vibration	Shall not trip when vibrated to MIL-STD-202, Method 204, Condition A, 100% load			
Temperature Rating	-40 to 85°C (-40 to 185°F) Ambient			
Handle Off Guard	Yes, protects against accidental user actuation to OFF position			

Environmental Sensors	
EA9102	Single Temperature Probe
EA9103	Temperature and Humidity Combo Sensor
EA9105	3x Temperature and Humidity Combo Sensor
EA9106	Sensor Input Hub (3 sensors input to PDU)
EA9109	Magnetic Door Switch (open/close)
EA9110	Dry Contact Cable (for third party sensors)
EA9111	Spot Fluid Leak Sensor
EA9112	Rope Fluid Leak Sensor
EA9116	Smoke Alarm Sensor

Warranty and Terms

Warranty

CIS Global warranties Enlogic brand equipment provided shall be free from manufacturing defects for a period of five (5) years from the invoice date to the original purchaser. For full warranty details, please visit www.enlogic.com/warranty.

About CIS

CIS Global has delivered superior product development, manufacturing, and logistics management since 1955 to small and large customers across the globe. We specialize in data center products including mechanical motion and power management solutions. As world market share leader in precision server rails and OEM market share leader in PDUs, CIS designed and built products are found in nearly every data center worldwide.

CIS has more than 20 years' experience manufacturing more than 2-million best-in-class PDUs. CIS acquired Enlogic in 2015 and remains dedicated to providing the industry's most innovative power management solutions build with the highest manufacturing quality.
