

## Splice Support Bridge

- 4, 8, 12/24 or 48 Way Bridges.
- Low Cost Versatile and Compact.
- Screw or Self Adhesive Fixing.
- Durable ABS Plastic Design.
- Modular Build 4 Way Bridge.
- Integral label plate

**Fibre  
Optic  
Prod-**

Designed by Mainframe Communications limited, the Splice Support Bridge is efficient and compact, and comes with a protective lid and label plate

The 24 way splice bridge will accommodate up to 24 fusion splices or 12 mechanical splices. The unit can be supplied with a protective lid with a designation label plate.

The 4 way splice bridge will accept 4 mechanical or fusion splices. The unique modular design allows expansion of capacity by attaching additional bridges as and when required.

These Splice Support Bridges are used worldwide in a variety of fibre termination panels, from ODFs through to building flexibility points and splice enclosures.
