

Fiber Management Flat Manifolds

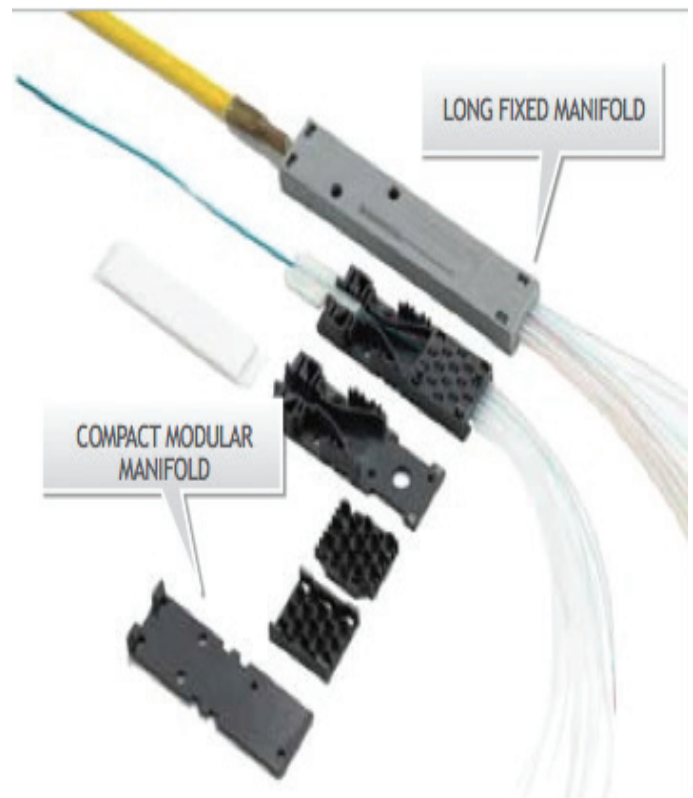

PPC Flat Manifolds protect, breakout and manage primary coated fiber from a fiber bundle, a ribbon fiber, a blown fiber unit or any suitable fiber cable. The input fiber bundle is safely and securely terminated.

Assembly of the Flat Manifold is made easy by the simple open- plan lay-through design, with full bend radius control within the unit. Two versions are available, Compact Modular and Long Fixed types.

When using 250 μ m fibers, each output fiber (max 12f) is protected by precision-made 900 μ m PTFE tube, securely retained within the unit. 900 μ m fibers do not require a PTFE tube.

Features & Benefits

- Protects, organizes, manages and secures primary fiber
- The bend radius is controlled to eliminate transient losses
- Ease of use, incorporating a fiber to tube threading guide
- Available in 4, 6, 8 and 12 fiber tube kit versions or with a reel of 120m PTFE tube
- Space saving, modular system with the ability to stack
- Fire retardant
- Useable with 250 μ m and 900 μ m fiber
- Compact - Modular manifold, smaller, stackable, PTFE gripper pad for easy assembly
- Long - Fixed manifold, fewer parts, 1-stage routing process

Fiber Management Flat Manifolds

Manifold Product List

Compact Modular Manifold	900μ PTFE Buffer Tube	Pack Quantity	Product Code
12-way Manifold with no tails	0	10	10-0340
4-way Manifold for 4 fiber with 1 meter tails	4 x 1 mtr.	10	10-0341
6-way Manifold for 6 fiber with 1 meter tails	6 x 1 mtr.	10	10-0342
8-way Manifold for 8 fiber with 1 meter tails	8 x 1 mtr.	10	10-0343
12-way Manifold for 12 fiber with 1 meter tails	12 x 1 mtr.	10	10-0344
12-way Manifold for 12 fiber with 120 meter (reel) tails	1 x 120 mtr.	10	10-0345
Long Fixed Manifold	900μ PTFE Buffer Tube	Pack Quantity	Product Code
12-way Manifold with no tails	0	10	10-0340
4-way Manifold for 4 fiber with 1 meter tails	4 x 1 mtr.	10	10-0341
6-way Manifold for 6 fiber with 1 meter tails	6 x 1 mtr.	10	10-0342
8-way Manifold for 8 fiber with 1 meter tails	8 x 1 mtr.	10	10-0343
12-way Manifold for 12 fiber with 1 meter tails	12 x 1 mtr.	10	10-0344
12-way Manifold for 12 fiber with 120 meter reel (trails)	1 x 120 mtr.	10	10-0345
Additional reel of PTFE tube - 120m reel	1 x 120 mtr.	1	10-0323
